

Tripod Stands

Product Overview

Wolf's range of tripods are lightweight, easily transportable and will extend a lamp to a maximum height of 3.2 metres.

Once erected, a tripod gives a stable platform allowing the LinkEx™ LED Temporary Luminaires, Portable Fluorescent Leadlamps, LED Floodlites and XT Flood Bank Stands to be used at a variety of heights and positions. The tripod allows the positioning of a lamp to deliver vertical or horizontal forward facing light or in the horizontal position the light can be directed upwards illuminating the work area from the underside.

There are two models available:

- **Medium Duty** - Steel (Plated) – max. height 2.4m
- **Heavy Duty** – Steel (Plated) – max. height 3.2m

A mounting bracket is required for the LinkEx™ LED Temporary Luminaire and Portable Fluorescent Leadlamp to attach to the tripod and position the lamp either horizontally or vertically. An optional mounting bracket (LL-669 Z bracket) is available for the LinkEx™ LED Floodlites and XT Flood Bank Stands (for the Medium and Heavy Duty Tripods only) to attach to the lamp/tripod and facilitate an easy removal of the lamp for frequent positioning at ground level.

IMPA Code

33 19 33 - LL-690, 33 19 34 - LL-695

Technical Specification

Product Reference	LL-699	LL-668
Product Description	Medium Duty Tripod Stand	Heavy Duty Tripod Stand
Material	Steel - Plated	
Height (Extends To)	2.4m	3.2m
Width (Leg Extension)	1m	1.25m

Weight		6kg				8kg	
Suitable For		LL-500, LX-400(E), WF-300XL and XT-4XX/6XX Ranges					
Mounting Bracket	LL-500	LL-690 (2x36W Lamp)	LL-695 (4x36W Lamp)	LL-690 (2x36W Lamp)	LL-695 (4x36W Lamp)	LL-690 (2x36W Lamp)	LL-695 (4x36W Lamp)
	LX-400(E)	LX-670					
	WF-300XL	Not Required		LL-669 (optional) Z bracket attached to floodbank/floodlite stands for frequent removal from tripod and repositioning of lamp at ground level.			
	XT-4XX / 6 XX	Not Required
