

# CHARGER RC-200H/RC-200L

WITHOUT COMPROMISE

## PRODUCT INFORMATION

The RC-200H/L chargers are for use with the R-50/55 torches in the Wolf Rechargeable Torch range.

The chargers are designed to hold the rechargeable torch R-50/55 while charging, using a 'snap in/snatch out' function, for quick release but secure retention, even in vehicle applications, enabling them to always be ready for use.

- The RC-200L incorporates the RC-200 charger with the RC-452 DC supply cable for use at low voltages of 12-24VDC for vehicle applications.
- The RC-200H incorporates the RC-212 charger with the RC-300 plug-top mains adaptor for use at mains voltages of 90-264VAC, 50-60Hz (including rig voltages) The mains adaptor is supplied with pin configurations for UK, EU, US and Australia.

### FEATURES

- Yellow latch can be used to easily remove the torch or use the snatch function
- All Chargers may be used free standing or can be bench or wall mounted
- Secure retention of the torch, even in vehicle applications, enabling them to always be ready for use
- Power connected indicator, the torch has state of charge indication built into the product
- Quick recharge to 90%, state of recharge indicated using the torch indicator LEDs
- Pre built rack options available (see [Rechargeable Torch Charger Bank](#))

## TECHNICAL INFORMATION

RC-200 CHARGER		
PRODUCT REFERENCE	RC-200L	RC-200H
PRODUCT DESCRIPTION	Torch Charger with DC Supply Cable	Torch Charger with Plug-Top Mains Voltage Adaptor
INPUT VOLTAGE	12-24Vdc	90-264 VAC, 50-60Hz (including rig voltages)
ENCLOSURE	High Impact Thermoplastic	
INSULATION CLASS	III	III + II
RECHARGE TIME	3.0 hrs (90% in 1.5 hrs)	
INGRESS PROTECTION	IP20	
WEIGHT	0.275kg	0.275kg + 0.125kg

All information has been gathered under laboratory conditions, the user must regard the values given as approximate. Changes may be made to the above specification without notification, details are available on request.
