To whom it may concern

EN IEC 60079-0:2018 Explosive atmospheres – Equipment. General requirements (7th edition)

Following the publishing of the above EN standard in the Official Journal in 2019 as a harmonised standard to the EU ATEX directive 2014/34/EU, new obligations were introduced for Zone 20, Group III (EPL Da) products specifying significantly increased compliance and test requirements. As a consequence of the challenges that this change presented, and to ensure that products would continue to comply with harmonised standards going forwards, Wolf Safety Lamp Company chose to update certification to Zone 21 (EPL Db) for the following products in the Wolf range:-

- HT-400Z0
- HT-650
- M-85
- TS-35+
- TR-35+
- R-55
- XT-75
- M-10
- M-40
- M-60

A handwritten signature in black ink, reading "Gareth Andrews".
